Children are encouraged to communicate by signing before they develop the skills necessary for speech. By teaching single sign languages to children as young as eight months, we can help them to carry their memories and their fears. When children sign together, having sign language for fall back on can provide a comforting safety net. Favorable nursery rhymes and songs, with babies and toddlers, signing and miming along. Developed with the support of Lancashire C.C. Early Years and Childrens Centre, and SureStart Resources Ltd. as part of their "Sing, Sign & Rhyme" series, these books encourageussen through music and BSL signs.
